3. Methods of Use

Cleaning a Connector in an Adapter

① Remove the attachment from the guide.

② Align the adapter and the guide key. Insert the guide straight into the adapter until the cleaning cloth or the insertion mark is completely hidden.

③ Push the main body straight into the adaptor. When you hear the click sound, the cleaning is completed. Stop pushing and pull straight out.

Cleaning an Optical Connector Plug

① Open the flap of the attachment.

② Align the attachment and the optical connector plug. Insert the plug straight into the attachment and push in until the key is completely hidden.

③ Align the attachment and the guide key. Insert the guide straight into the attachment and push in until it reaches the attachment insertion point.
